

MILESTONES AND ACTIVITY LIST

Milestone:

Modern Technology are increasing and optimizing the Performance of an Artificial Intelligence (AI) Model, Based Crop Yield Disease Prediction System, is helpful for farmers to prevent the crop from various Disease which can identify the Disease within a process of capturing the Image at the plant and Machine Learning Algorithm will give the Disease Name of which the plant is affected. In this Project Milestone will give the Best Solution for farmers using the complete friendly and simple user interface web application to fetching the solution by own. In addition, process we are planned to add a valid Module that is Fertilizer recommendation for the Specific Disease. It can give both Artificial fertilizer and Natural Fertilizer in suggestion manner.

Activity List:

In Project Management, Planning is an Important task to scheduling the phrase of the project to the Team Member. This Activity can show the various activity are allocated and Done by the Team Members. We can Split into the Four Step of Phrases they are,
Phrase 1: Information Collection and Requirement Analysis.
Phrase 2: Project Planning and Developing Modules.
Phrase 3: Implementing the High Accuracy Deep Learning Algorithm to Perform.
Phrase 4: Deploying the Model on Cloud and Testing the Model and UI Performance

Agile Methodology for Activity Planning
