

SPIRIT DELIVERY PLANNING

The delivery plan of project deliverables is a strategic element for every Project Manager. The goal of every project is to produce a result that serves a specific purpose. With the word "purpose", we can mean the most disparate goals: A software program, A chair, A building, A translation, etc.

The Project Spirit Delivery Planning is one of the process of Completing the project and Showcasing the Timeline of the Project Planning. This Delivery plan helps to understand the process and Work Flow of the Project done by the Team Mates.

Every Single Modules are assigned to team mates to showcase their work and contribution of developing the Project.
